

RIGA, LATVIA, SEPTEMBER 18-19, 2023

9th International Scientific Colloquium
Modelling for Materials
Processing 2023

Traditional international scientific colloquiums *Modelling for Materials Processing* were held in Riga and in Hanover. Institute of Numerical Modelling and Institute of Physics of the University of Latvia are organizing the next colloquium *Modelling for Materials Processing* in Riga in September 2023. The results presented at the colloquium will cover recent numerical and experimental research activities in the field of industrial processing technologies for creating new and alternative materials, materials of highest quality and purity, and new innovative products. Selected articles will be published in peer-reviewed journals *Magnetohydrodynamics* and *Crystals*.

Important dates:

Abstract submission until
Notification of acceptance
Full paper submission
PhD and student course
MMP 2023 conference

May 15, 2023
June 5, 2023
June 30, 2023
September 14-16, 2023
September 18-19, 2023
